30 July 2020

Dear Sir/Madam

Re: Proposed replacement parking to the rear of 20-44 Huddersfield Road, Diggle

I write further to the consultation carried out with residents concerning Oldham Council's proposals to introduce parking restrictions outside your property under a Traffic Regulation Order (TRO). As part of the Traffic Regulation Order published, as you will no doubt be aware, the Council proposes to provide replacement car parking to the rear of your house. The Unity Partnership carries out property related work in partnership with Oldham Council, and I am therefore writing to you to provide an update.

Following the public consultation relating to the order, a number of objections were received from residents, and therefore, under the required statutory procedures, the proposed order will need to be considered by the Council's Traffic Regulation Order Panel. The panel is due to consider this matter on 24th September 2020.

I will, of course, write to you again once the Transport Regulation Order has been considered by the Panel, and a decision has been made; but wished to advise you of the current situation regarding the proposed scheme. Whilst writing, may I take the opportunity to thank you for your patience in the matter.

I hope that the above provides you with the details of the current position, however, should you have any queries about this letter, please do not hesitate to contact me further on 07813 394551 or by email at phil.holland@unitypartnership.com

Yours faithfully

Phil Holland
Senior Surveyor
